

Community Impact Grant FAQs

Can our organization apply for a Program Grant and an Operational Support Grant? Though we would love to fund all the grant needs in the community, unfortunately, we can't. In this grant round, organizations must choose between the Program and Operational Support grants and submit only one application. We are a community group and don't have our 501(c)3 status.

Are we eligible to apply? The Program and Operational Support Grants are for organizations that have their 501(c)3 nonprofit status and their own Employer Identification Number. However, for grassroots community groups that do not have their formal 501(c)3 nonprofit status, we offer Communities in Action grants. For more information, go to: <https://www.jacksoncf.org/communities-in-action-grants>.

Do we need any letters of support? No.
